

9TH SOUTH EASTERN EUROPEAN CYSTIC FIBROSIS CONFERENCE

10th European Cystic Fibrosis Awareness Week

16th and 17th of November 2018
Ljubljana, Slovenia

The conference covers cystic fibrosis and other rare diseases in Slovenia, and the usual diagnostic process of cystic fibrosis patients in Western European countries.

The conference is intended for doctors and other healthcare workers who care for cystic fibrosis patients in their line of work or who wish to expand their knowledge on the subject, and for the patients and their families.

Objectives of the conference are:

- expanding the knowledge about cystic fibrosis, the curative and preventive medicine, and organising a quality healthcare program in accordance with the European standards of care;
- developing Europe-wide cystic fibrosis network with international connections between patient organisations and healthcare workers, allowing the exchange of information and good practice;
- improving the abilities and awareness for better access to quality healthcare for cystic fibrosis patients.

Program

The conference program includes the following topics:

Friday, 16th of November 2018

- Cystic fibrosis and Rare diseases in Slovenia
- Detection and Standards of Care
- Cystic fibrosis Registry and Cystic Fibrosis Clinical Trials

Saturday, 17th of November 2018

- Cystic fibrosis and Social Security
- Mental Health
- Managing infections of Cystic fibrosis patients
- Diet and Physical Activity

We reserve the right to change the program!
Southeastern European Cystic Fibrosis conference will include speeches in both Slovenian and English. Simultaneous interpreting will be ensured.

Attendance is free of charge. However, prior registration is required.
